- Hot/Cold Contrast Therapy
- Enhanced Compression
- Rechargeable
- Portable

The Mobile Solution for Advanced Recovery

The Cryon-X Pro is a portable therapy system combining cold, heat, and compression in one device, perfect for clinics, athletic facilities, or home use. With a rechargeable battery and software-controlled functionality, it delivers iceless cold therapy and real-time temperature control for targeted pain relief and swelling reduction. Designed for mobility and ease, it's an ideal solution for treating post-surgical and post-traumatic conditions wherever care is needed.

NO ICE. NO LIMITS.
